

JOIN OUR TEAM!

For verope AG (Zug/CH) and/or verope Service Center GmbH (Contiwig/DE) we are looking for as of IMMEDIATELY

proALPHA SUPPORTER (M/W/D)

Who we are:

verope merges customer demands for top quality and competitive pricing in production, sales, distribution and services of special wire ropes with a true global reach. verope AG is a Joint Venture company between KISWIRE Ltd. (South Korea) and Pierre Verreet, head and founder of verope AG, headquartered in Zug. From its headquarters, verope AG manages a group of international subsidiaries in Germany, China, Singapore, USA, Brazil and UAE. The verope group is established worldwide as one of the leading suppliers of special wire ropes for the maritime, construction, heavy and mining industries.

verope – rely on

True to the motto „rely on“, verope stands for high-quality products that our customers worldwide can rely on. verope AG is a reliable partner for customers, employees, as well as society and the environment.

Powerful Partner

Powerful partners - that's what our employees are: independent, responsible and innovative!

Excellent Quality

Excellent quality - this is also the level at which our employees operate. We encourage their professional and personal development. We place the highest value on independent action and creativity, thus motivating our employees to work for the company and contribute their ideas.

High Performance

... that is what we expect not only from our ropes, but also from our employees.

Your tasks

- You modify and extend the proALPHA enterprise resource planning system according to the requirements of the specialist departments and the technical specification to be created by you as required
- You support the IT team in application maintenance
- You solve functional tests and systemic error analyses by working independently and conscientiously
- You support the implementation of requirements and develop individual software solutions within national and international ERP projects - in-house.
- Your scope of action ranges from minor adjustments of existing functionalities to the implementation of new functions and the realization of complex tasks.
- You determine the software architecture and integrate your work into a customized overall solution.
- By means of tests you check whether the requirements as well as the quality standards are fulfilled
- You support internal customers and act as their competent contact person

Your profile

- Degree in business informatics and/or qualified vocational training, e.g. as an IT specialist, and several years of experience in a comparable work environment.
- You are familiar with at least one modern programming language/development environment (e.g. PROGRESS, C#, Java, ABL, Eclipse)
- You have practical experience with relational database systems as well as object-oriented development
- Programming knowledge in the area of proALPHA/Progress
- Good language skills in German and English enable smooth communication with national and international customers
- You perceive different customer needs as a challenge, which you like to tackle and implement technically
- A good understanding of business processes helps you to grasp complex requirements
- Your personal strengths are team orientation, analytical skills and the ability to act in a structured and results-oriented manner

What awaits you

Challenging tasks and projects in the area of IT/ERP strategy will make your workday extremely varied. You can expect a young innovative team, different tasks and intercultural exchange. At verope, you will have prospects and interesting challenges right from the start. We are a solid, steadily growing company with very good prospects for the future. We offer our employees targeted internal and external training measures. With flexible working hours, we live the DU culture for the most part and have fun in the team even apart from the daily challenges. If you describe yourself as an open-minded and outgoing person, if you would like to perform varied tasks in your future position, if you are open to and respect interculturalism, then it would be great if you could tell us about yourself.
